

Basketball Australia: Etrainu Accreditation Integration

Last Modified on 29/01/2024 3:24 pm AEDT

GameDay Passport allows Basketball Australia participants to register for an accredited course and manage their coursework using an integration with Basketball Australia's Learning Management System hosted by [Etrainu](#).

This integration also allows Basketball administrators to track and report on the progress and completion of accreditations in GameDay Passport, creating an integrated accreditation journey as below:

1. A participant registers and pays for an accredited course through **GameDay Passport**:

A screenshot of the GameDay Passport registration interface. The header shows the GameDay logo on the left, the Basketball Australia logo on the right, and the text 'Basketball Australia Accreditations' and 'Basketball Australia Performance Coach Course' in the center. The main content area features a large image of a coach in a dark blue 'AUSTRALIA' jersey addressing a group of people seated on wooden bleachers. Below the image, the text 'How many people are you registering?' is followed by a dropdown menu labeled 'Adults' with the number '1' selected. A teal 'Continue' button is positioned at the bottom of the registration form.

2. An **Accreditation Record** is created for the participant which can be tracked in GameDay Passport through the **Members > LIST ACCREDITATIONS** option.

3. At this point, a course record will also be created in Etrainu, allowing the participant to complete their coursework through the Etrainu Learning Management System.
4. As the participant proceeds through the coursework in Etrainu, their Accreditation record will be updated to reflect its **completion status** in GameDay Passport.
