How do I create a new Team?

13/06/2025 1:00 pm AEST

Overview

Association and Club-level administrators have the ability to manually create Teams in their Passport database, which can then be used in competitions, registrations and more.

Note: Each team must belong to a club in order to be recognised when creating competitions and generating fixtures. If you are an Association administrator, please ensure that clubs have been set up in your database before adding teams

Step-by-Step

Step 1 (optional): Configure your team fields

Before you create a team, it's a good idea to configure the fields you want to capture against the team record, if you haven't already done so. This can be done using the Field Configuration functionality.

In the top-right corner of your database, click the Settings Cog > Settings (if at Association-level) > Field Configuration > Team Fields > Apply the relevant display settings for he fields you want to capture > SAVE OPTIONS
