

Bulk Stats and Player League Stats Rebuild

Last Modified on 19/03/2022 11:32 am AEDT

The Bulk Stats Rebuild and Player League Stats menu will give you the functionality to refresh the player stats within your database. This process will only need to be used if the player statistics displaying on your website don't reflect the stats within your database, even after a Publish to Web. The Bulk Stats rebuild can be done by a Competition Season and can be done per particular Competitions. Processing a Publish to Web after completing a Bulk Stats Rebuild should refresh and update the Player Stats data to your website.

Firstly, login to your [Online Membership Database](#) - If you don't have your login details please contact your State Governing Body or Association.

The following can only be completed at association level.

1. Click on Competitions and click Bulk Statistics Rebuild.

The screenshot shows the GameDay Passport Training interface. The left-hand navigation menu is expanded to show 'Competitions', and 'Bulk Statistics Rebuild' is highlighted with a red box. The main content area displays the 'GameDay Passport Training' details page, including a logo, 'Add/Edit Logo' button, and a 'Stats' section with various charts and tables. The 'Stats' section includes charts for 'Members', 'Players by Gender', 'Coaches', and 'Umpires', and tables for 'New Members', 'Members registered via forms', 'Clearances Out', and 'Transaction Value'.

2. Select the season to rebuild and click Continue.
