

## Statistics Templates | Overview

Last Modified on 29/11/2023 1:18 pm AEDT

**Statistics Templates** allow administrators to define a set of statistics and apply them to competitions in order to collect player and team statistics by match, competition or career. The Statistics configuration options for player and competition statistics provide association administrators with a great deal of flexibility in how they record and collate statistics. Associations can also customise the statistics that are recorded for a given competition and determine how they appear on your website.

**Note:** The total available fields in Statistics Templates are pre-defined and configured by sport. If there are any statistics for your sport that you believe need to be added to a statistics template, please contact [support@mygameday.app](mailto:support@mygameday.app).

## Creating a Statistics Template

Each Association database will have access to create their own Statistics Templates in Passport and assign them to a competition.

To create a **Statistics Template**:

1. From your Passport dashboard, click the **Settings Cog**, then click **SETTINGS**

The screenshot shows the GameDay Passport Training Association dashboard. The top navigation bar includes the GAMEDAY logo, a search bar, and several utility icons (home, user, help, notifications, settings, and a profile icon labeled 'RS'). The left sidebar contains a navigation menu with items like Dashboard, Members, Competitions, Clubs, Teams, Communications, Registrations, Programs, Reports, and GameDay View. The main content area is titled 'GameDay Passport Training' and features a profile card with the association's logo, an 'Add/Edit Logo' button, and contact details for the President, Vice President, and Treasurer. A 'Stats' section with a 'Configure' link is also visible. A settings dropdown menu is open in the top right corner, listing options: Settings, User Management, Process Log, Audit Log, and Dark Mode (BETA).

2. In the Manage Competitions section, click **STATISTICS TEMPLATES**

## Configuration

These configuration options allow you to modify the data and behaviour of the system.

### Manage Users and Security

### 3. Click **ADD**

## Statistics Templates

[ADD](#)

Name		
Type: Player Competition (1 templates)		
 Baseball - Player Competition Stats	<a href="#">Edit Fields</a>	<a href="#">Delete Template</a>
Type: Player Match (1 templates)		
 Baseball - Player Match Stats	<a href="#">Edit Fields</a>	<a href="#">Delete Template</a>
Type: Player Round (1 templates)		
 Baseball - Player Round Stats	<a href="#">Edit Fields</a>	<a href="#">Delete Template</a>
Type: Team Match (1 templates)		
 Baseball - Team Match Stats	<a href="#">Edit Fields</a>	<a href="#">Delete Template</a>

### 4. Provide a **Template Name** and select which **Template Type** you'd like to create, then click **UPDATE STATISTICS CONFIGURATION**:

## Statistics Template - Add New

To modify, change the details in the boxes below. When you have finished, press the 'Update Statistics Configuration' button.

**Note:** All boxes marked with a \* must be filled in.

Template Name\*

Template Type\*

[Update Statistics Configuration](#)

The **Template Type** you select will determine the statistics fields you have available, as well as how the statistics are measured:

**Player Career Statistics:** Allow you to customise the match statistic categories that are captured

and displayed for each player over the course of their career.

**Player Match Statistics:** Allow you to customise the match statistic categories that are captured and displayed for the players within your matches.

**Team Match Statistics:** Allow you to customise the match statistic categories that are captured and displayed for each team participating in a match.

**Player Round Statistics:** Allow you to customise the match statistic categories that are captured and displayed for each player as compared with all other players in that round.

**Player Competition Statistics:** Allow you to customise the match statistic categories that are captured and displayed for each player as compared with all other players in that competition.

To view or edit the details of any of your current Statistics Templates click the **VIEW** (magnifying glass) icon to the left of the template.

5. You can then select which statistics you want to capture with this template by dragging statistics from the **Available Fields** section and dropping them in the **Selected Fields** section. Click **UPDATE** when you are happy with the list of statistics in the template.

[Statistics Template Home](#) » Add a new Statistics Template

## Statistics Template - Add New

Use this screen to choose which statistics fields to display by dragging fields from the box on the left into the (box on the right). When you have finished press the 'Update' button.

Available Fields	Selected Fields
4th Innings	1. 1st Innings
5th Innings	2. 2nd Innings
6th Innings	3. 3rd Innings
7th Innings	4. Extra Innings
8th Innings	5. Runs
9th Innings	
Errors
