

How do I sign up to Passport?

Last Modified on 16/05/2024 11:08 am AEST

Signing up for a GameDay Passport account is your first step to accessing your organisation's Passport database. In order to be granted access to any Passport database or website, you must have a valid Passport account.

Once you have an account and have been granted access to your platform, Passport becomes your portal to login to manage your members and registrations, manage competitions or enter results and statistics, and access your competition website.

To sign up for a Passport account:

1. Go to the [Passport Login](#) page
2. Click **REGISTER**

A screenshot of the GameDay Passport login and registration page. The page has a white background with a dark blue header area. At the top, there is the GameDay logo (a teal hexagon with a white 'G') and the text 'GAMEDAY powered by stackports'. Below the logo, the heading 'Login to Passport' is centered. There are two input fields: 'Email Address *' with the placeholder 'email@address.com' and 'Password *' with the placeholder 'Password'. To the right of the password field is a link 'Forgot?'. Below the input fields is a teal 'Login' button. Underneath the button, there is a message: 'Don't have an existing Passport account? Please register below.' Below this message is a white 'Register' button with a red border. At the bottom of the page, there is a link for 'Privacy Policy' and a copyright notice: '© Copyright GameDay. All rights reserved.'

3. Complete the mandatory details to create your account. Your **Email Address** will be used as your username to access your Passport products. Click **CREATE MY PASSPORT** once you have completed the details.
