

# How do I show or hide a field based on another field response?

Last Modified on 24/03/2025 2:31 pm AEDT

## Overview

**Conditional Fields** provide administrators greater flexibility over the way in which fields are displayed on a Registration Form, as well as providing a more concise user experience. It allows administrators to display certain fields on a form only if another question is answered, as that particular field may only be applicable to certain types of members.

Administrators are able to set **Control Fields**, which in turn determine whether any subsequent fields are shown or hidden based on the user's response.

For example, you might want to find out if the registrant has any allergies and, if so, what they're allergic to.

In that case, we can add conditional rule where, if the response to the question 'do you have any allergies?' is YES, then we show an additional question called 'please specify your allergies'

**Note:** The guide below will show how to create the conditional rule on a registration form. For more information on creating custom questions, visit the relevant link below:

## Step-by-Step

### Step 1: Navigate to your registration form list

In your left-hand menu, go to **Registrations > REGISTRATION FORMS**

**Silverwood Sports Association** [Get Started](#)

**Details** [Edit](#)

165 Cremorne Street  
Cremorne  
VIC, AUSTRALIA, 3121  
0390001000 (Phone)  
[sophie@email.com](mailto:sophie@email.com)

**Add/Edit Logo**

**Contacts** [Edit](#)

**President** (Primary Contact)  
Darryl Monk  
0400300200  
[daz@email.com](mailto:daz@email.com)

**Administrator**  
Sophie Jones  
0400100000  
[sophie@email.com](mailto:sophie@email.com)

**Stats** [Configure](#)

Members, Players by Gender, Players, Coaches, Umpires, New Members, Members registered via forms

## Step 2: Edit the relevant registration form

Find the registration form you want to add the conditional rule to, then click **EDIT**

**Registration Forms** [Add New Form](#)

## Step 5: Open the Conditional Fields tab

You now need to configure these fields to show accordingly within the form so that only those who answer **YES** to the **Do you have any allergies?** question are shown the **Please specify your allergies** field. Conversely, if they answer **NO**, then **Please specify your allergies** will be hidden.

Click the **CONDITIONAL FIELDS** tab

View Form

Add Conditional Fields

Control Field	Condition	Value(s)	Show/Hide	Dependent Fields	Action

## Step 6: Create the conditional field rule

Click the **ADD CONDITIONAL FIELDS** button and configure your rule. In our example, we'll set the rule up as:

**When** = 'Do you have any allergies'

**Has any of the following values** = Yes

**Set the visibility** = Show

**For the following field(s)** = Please specify your allergies

Click **SAVE** once you've create your conditional rule

The screenshot displays the GAMEDAY web application interface. On the left is a sidebar menu for 'Silverwood Sports Association' with options like Dashboard, Finances, Members, Competitions, Clubs, Teams, Communications, Registrations, Courses, Reports, and Marketplace. The main content area shows the 'National Membership Registration Form 2025 (#116374)' with a 'View Form' button. The 'Conditional Fields' tab is active, showing a configuration panel with the following settings: 'When' is a dropdown menu set to 'Do you have any allergies?'; 'has any of the following values' is a text input set to 'Yes'; 'set the visibility' has 'Show' and 'Hide' buttons, with 'Show' selected; 'for the following field(s)' is a text input set to 'Please specify your allergies'. At the bottom of the configuration panel are 'Save' and 'Cancel' buttons. The 'Save' button is highlighted in green.
