How do I create a Statistics Template?

Last Modified on 17/11/2023 12:19 pm AEDT

Statistics Templates allow administrators to define a set of statistics and apply them to competitions in order to collect player and team statistics by match, competition or career. The Statistics configuration options for player and competition statistics provide association administrators with a great deal of flexibility in how they record and collate statistics. Associations can also customise the statistics that are recorded for a given competition and determine how they appear on your website.

> **Note**: The total available fields in Statistics Templates are pre-defined and configured by sport. If there are any statistics for your sport that you believe need to be added to a statistics template, please contact support@mygameday.app.

Creating a Statistics Template

Each Association database will have access to create their own Statistics Templates in Passport and assign them to a competition.

To create a **Statistics Template**:

1. From your Passport dashboard, click the **Settings Cog**, then click **SETTINGS**

2. In the Manage Competitions section, click **STATISTICS TEMPLATES**

Configuration

These configuration options allow you to modify the data and behaviour of the system.

Manage Users and Security	Configure Database Fields	Setup Registrations	Manage Competitions
Password Management	Custom Fields	Age Groups	Statistics Templates
Permissions	Field Configuration	Seasons	Ladder Templates
	Manage Lookup Information	Clearance Settings	Fixture Templates
	Member Packages		Media Outlets
	Member List Display		Finals Eligibility Settings
			Match Day Reports

3. Click **ADD**

Statistics Templates   ADD

	Name		
⊟ Type: Player Competition (1 templates)			
	Baseball - Player Competition Stats	Edit Fields	Delete Template
⊟ Type: Player Match (1 templates)			
	Baseball - Player Match Stats	Edit Fields	Delete Template
⊟ Type: Player Round (1 templates)			
	Baseball - Player Round Stats	Edit Fields	Delete Template
⊟ Type: Team Match (1 templates)			
	Baseball - Team Match Stats	Edit Fields	Delete Template

4. Provide a **Template Name** and select which **Template Type** you'd like to create, then click **UPDATE STATISTICS CONFIGURATION**:

Statistics Template - Add New

To modify, change the details in the boxes below. When you have finished, press the '**Update Statistics Configuration**' button.

Note: All boxes marked with a * must be filled in.

Template Name*	Team Match Statistics - Division 1 Competition
Template Type*	Team Match Stats ▼

Update Statistics Configuration

The **Template Type** you select will determine the statistics fields you have available, as well as how the statistics are measured:

Player Career Statistics: Allow you to customise the match statistic categories that are captured

and displayed for each player over the course of their career.

Player Match Statistics: Allow you to customise the match statistic categories that are captured and displayed for the players within your matches.

Team Match Statistics: Allow you to customise the match statistic categories that are captured and displayed for each team participating in a match.

Player Round Statistics: Allow you to customise the match statistic categories that are captured and displayed for each player as compared with all other players in that round.

Player Competition Statistics: Allow you to customise the match statistic categories that are captured and displayed for each player as compared with all other players in that competition.

To view or edit the details of any of your current Statistics Templates click the **VIEW** (magnifying glass) icon to the left of the template.

5. You can then select which statistics you want to capture with this template by dragging statistics from the **Available Fields** section and dropping them in the **Selected Fields** section. Click **UPDATE** when you are happy with the list of statstics in the template.

Statistics Template Home » Add a new Statistics Template

Statistics Template – Add New

Use this screen to choose which statistics fields to display by dragging fields from the box on the left into the (box on the right). When you have finished press the 'Update' button.

Available Fields	Selected Fields
4th Innings	1. 1st Innings
5th Innings	2. 2nd Innings
6th Innings	3. 3rd Innings
7th Innings	4. Extra Innings
8th Innings	5. Runs
9th Innings	
Errors	
Hits
