

Add Additional Products to Course

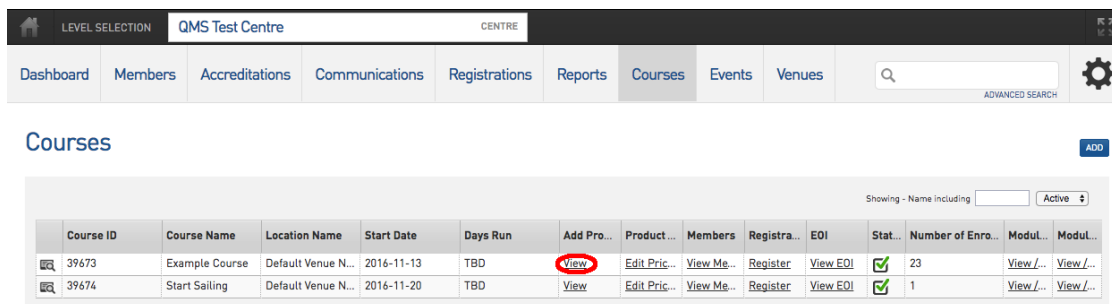

Last Modified on 18/05/2022 12:36 pm AEST

In the event that as a Centre you wish to offer additional products to course participants you can link products to a course registration form. An example of such a product would be if you wish to offer an optional fee for lunch to be provided or for a hard copy of course materials.

1. The product must be created at Centre level prior to being able to link it to a course. Go to Registrations > Products and create the product.

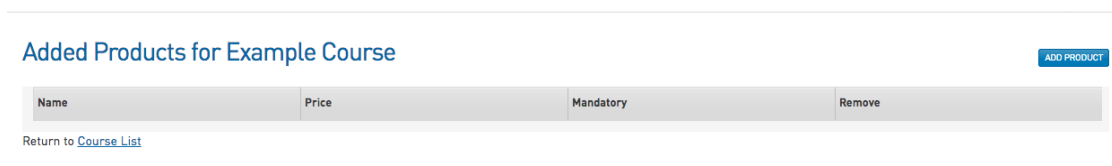

2. To add the product to the course registration Go to Courses and then click "View" under Add Product for the course you wish to add the product to.
