Courtside App | Device specifications

Last Modified on 02/08/2024 4:01 pm AEST

Apple / iOS

Latest iOS Courtside versions **V4.22.2.2**

Supported iOS versions

The minimum supported version is iOS version 14.

Gameday recommends that devices should have 4G sim card capability.

Important: If the operating system version is **lower than the previous major release by Apple** and below our recommended specifications, Courtside may not perform to the required standard.

Android

Latest Android Courtside version **V4.22.2.2.138**

Supported Android versions

The minimum supported version is **Android 10**.

Gameday recommends that devices should have 4G sim card capability. Ensure the device allows for Wifi.

Important: If the operating system version is **lower than the previous major release by Android** and below our recommended specifications, Courtside may not perform to the required standard.

Recommended Devices

Gameday recommend that only those android and iOS devices and operating systems that are **no more than 3 years old** are compatible with Courtside. It is recommended that these devices are purchased based on their compatibility to that of the most recent version of the operating system released.

If you have a tablet/ipad that DOES NOT appear on this list or was released between 2017 and 2019 the app may still work but you may come across issues - *please note we will not be fixing any of these issues if this is the case so you will need to upgrade your device, as we need to remain up to date with recent releases from Apple and Android, making changes to the app to suit tablets/ipads older than 3 years don't allow us.*

Basketball Australia affiliated associations:

If you have a tablet/ipad that DOES appear on this list and is not older than 2020 please send through your issue/s to Basketball Australia (if your organisation is affiliated with BA) who need to be notified of this first (as per the business rules in place by the sport) and can then forward this onto us directly via: <https://basketballaustralia.zendesk.com/hc/en-us/requests/new>

Private Provider/ International basketball associations:

If you have a tablet/ipad that DOES appear on this list and is not older than 2020 please send through your issue/s to the GameDay support team directly: support@mygameday.app

Android Devices Supported:

- Samsung Galaxy Tab S7 and S7+
- Samsung Galaxy Tab A7
- Samsung Galaxy Tab S6 and S6 Lite
- Samsung Galaxy Tab 5Se

iOS Devices Supported:

- iPad Pro (4th Gen, 11"/12.9")
- iPad Mini (5th Gen)
- iPad (7th or 8th generation)
- iPad Air (3rd or 4th generation)

It is advisable to consider battery-life when purchasing a device to ensure it will meet your needs. Ensure that the device allows for Wifi.
