

How do I create a Program?

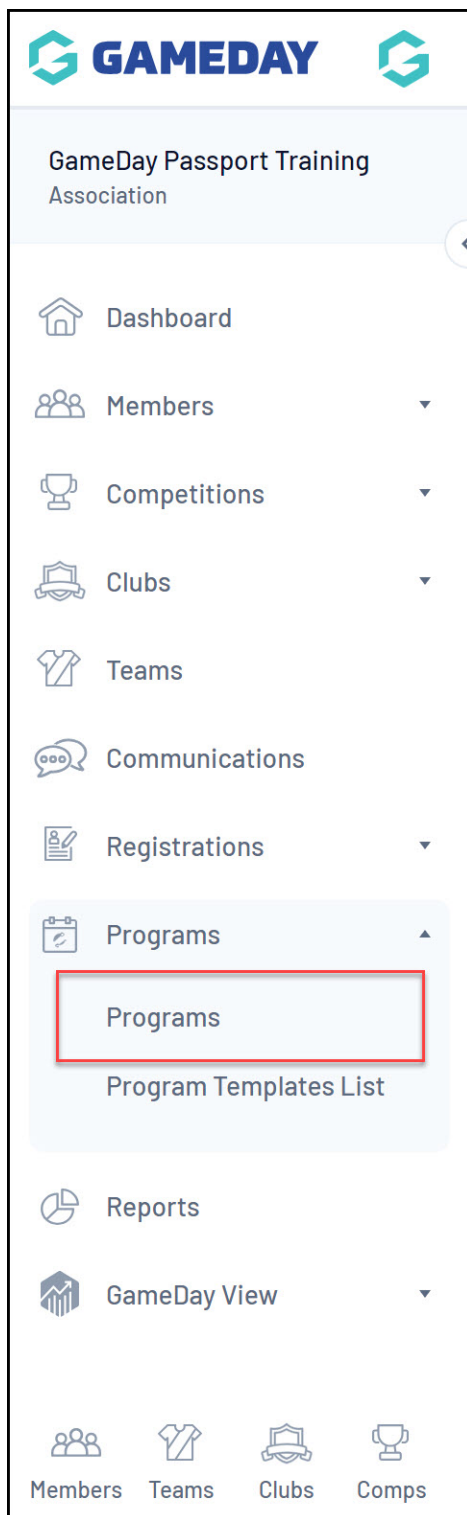

Last Modified on 06/12/2023 10:51 am AEDT

Creating **Programs** allows you to set up multiple registration avenues and keep participants separated to effectively manage a series of programs your organisation is facilitating.

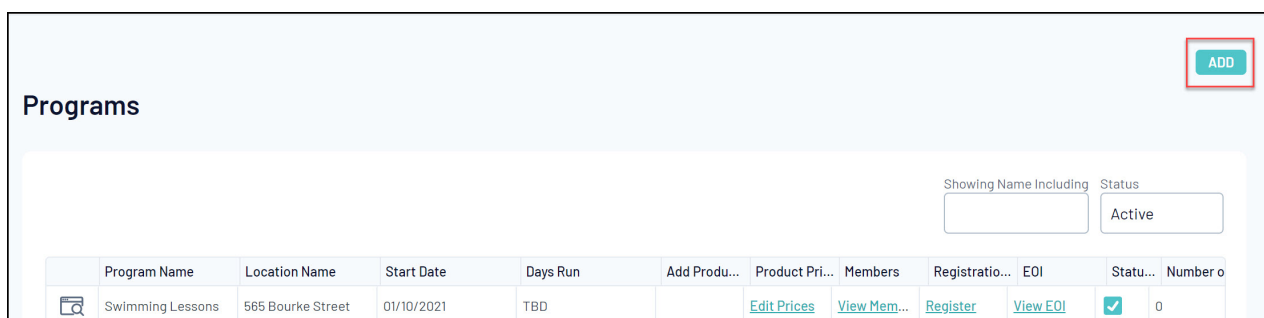

Note: Before creating Programs, there will need to be at least one [Program Registration Form](#) and [Program Template](#) created in your hierarchy. If you do not have access to create these, please contact your governing body.

To create a Program:

1. From your organisation dashboard, open the **Programs** menu and select **PROGRAMS**

2. Click **ADD**

3. Select a [Program Template](#) and click **CREATE PROGRAM**
