

The admin then has the ability to set this field how they would like and if they would like clubs to be able to do this for members as well.

We recommend that leagues set this field to **editable**.

- **For my level** - this is for your association level

- **For levels below** - this is for the club level - if this option is set to editable this will allow clubs themselves to be able to tick/untick this checkbox if a member ever comes to them and asks to be removed from the website- it saves the association having to do it. However if you would only like your level (league/association) to be able to add/remove people from the website keep this field set to **let levels below choose**.

5. Click save once you have selected your option

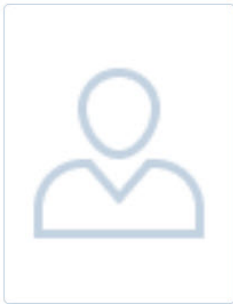

To see this field within a members profile:

6. Members > list members

7. Click into the relevant member

8. Contact details > edit

BELIZE

Hide From Public Display

(Note: This is not immediate and will rely on the association to next publish their changes. People may also be hidden by other means set by the association)

Update Member

10. Tick this box and then on the next publish to web the member will be removed from the website.

To unhide a member from the website, untick this box and then do a publish to web.

*Note: if this box is ticked, the association will need to **publish to web first** in order for this member to be removed from the website, so if you are a club, please contact the league directly.*
