

## How do I enter Quick Results?

Last Modified on 17/11/2023 12:41 pm AEDT

Quick Results is a simpler way to access the post game screen where you can input final team scores. The Enter Quick Results option will give the ability for the Result of a match to be entered in quickly and easily from the Match List screen. Quick Results entry will just give the option to enter in a Win/Loss result for a Match. This is used for organisations that don't necessarily add players to teams or have player or team statistics but can be used by any organisation if they want to add in results quickly and then worry about the player and team statistics later.

### ENTER QUICK RESULTS - VIA DESKTOP

1. Log into your passport
2. Click on RESULTS ENTRY & LIVE SCORING.
3. Click on the relevant club/team tab.
4. Apply the relevant dates for the match/matches you need.
5. Click **ENTER QUICK RESULTS** button.

The text 'Show matches between: (dd/mm/yyyy)' is followed by two date input fields: '01/07/2020' and '31/12/2020', each with a dropdown arrow. To the right is a teal 'Apply Dates' button. Below these are three buttons: 'Teamsheets', 'Enter Quick Results' (highlighted with a red border), and 'Filter Matches' with a small icon.

6. Input the final score (if visible) and a final result within the matches, then click **SAVE QUICK RESULTS**.

**NOTE: each sport has a different template when viewing the quick results section so some may have a final score plus a result, while others may only have a result.**
