

How do I select players for a Match (Mobile)?

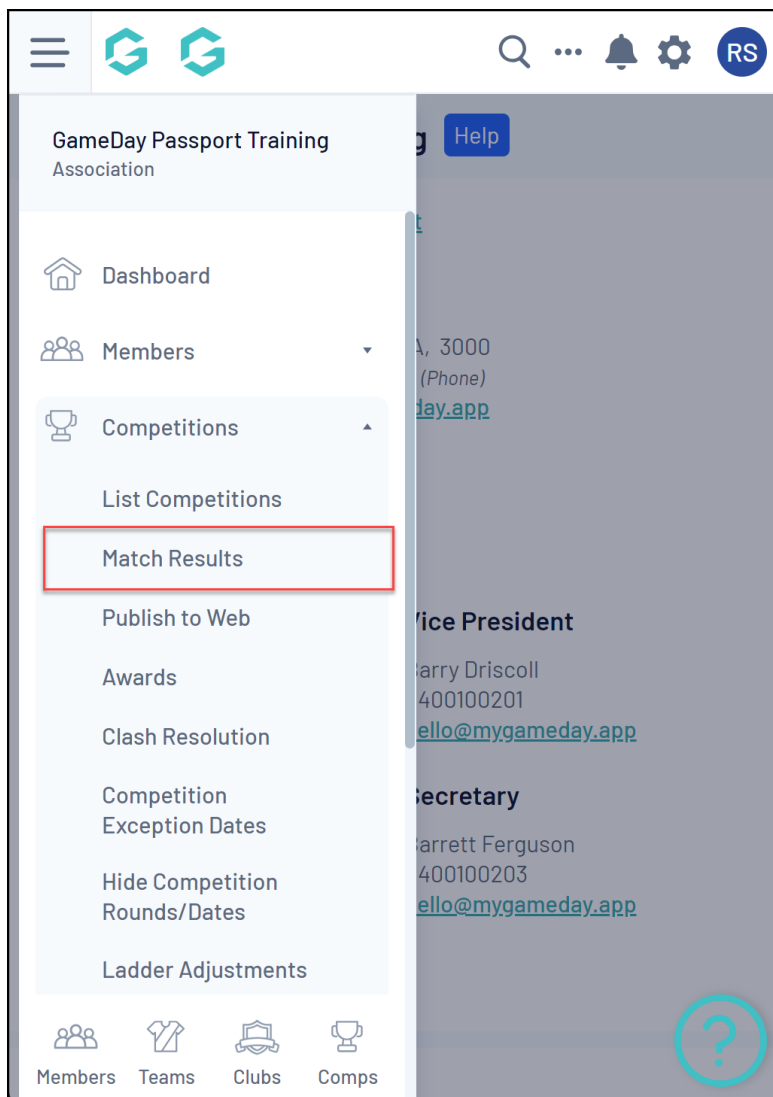

Last Modified on 17/11/2023 12:42 pm AEDT

Using GameDay Passport's Match Results feature, competition administrators are able to select players for a match from their list of available members.

The **Pre-Game** feature in the Match Results interface allows you to select players for a particular match, who can then be added to team sheets for that match, checked in to mark attendance and have statistics recorded against their account.

To access the Pre-Game feature:

1. From your Passport dashboard, open the left-hand menu, then select **Competitions > MATCH RESULTS**

2. Next to a given match, click the arrow in the top right corner of the match and select **PRE**

GAME

The screenshot displays the 'GAME' interface. At the top, there are date filters: '01/04/2023' and '01/08/2024' with 'Apply Dates' and 'Filter Matches' buttons. Below this is the 'Match List' section with an 'Update Lock Status' button. The match list contains three entries for 'Bears Seniors' in the '2023 Mixed Competition' on '01/01/2024 07:00'. The first entry is partially obscured by a dropdown menu with options 'Pre Game', 'At Game', and 'Post Game'. The second entry is 'Bears Seniors' vs 'Giants' and has a 'Lock PreGame' checkbox. The third entry is 'Bears Seniors' vs 'Jaguars' and has a 'Lock PreGame' checkbox with a question mark icon next to it.

NOTE: If you are unable to find any matches, you can use the Date Filters or Filter Match button at the top of the page to customise the parameters through which you are searching for matches.

The **Available Players** list displays all the players within your club who are registered for the season.

Humphrey, Leo (28/04/1998)	+
James, Taylor (08/06/1994)	+
Langley, Reece (03/09/2006)	+

?

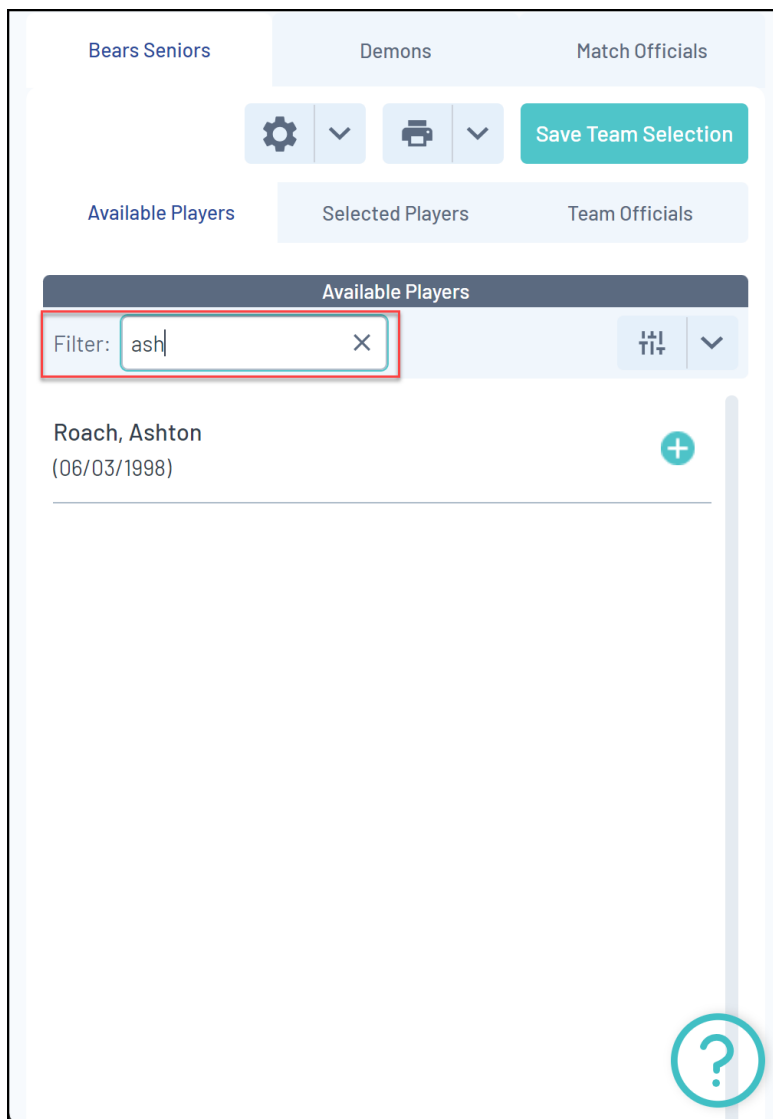

You can select a variety of filters here to narrow down who appears within this available players list. You can adjust this by clicking the drop-down arrow next to the filter icon.

You can select from:

- **Show all Club players** - this will list every player within the club who is registered for the season.
- **Show Players registered to this team only** - this will list the players that have been assigned to this team via the [modify team list](#) functionality.
- **Show Players to this age group** - if your association has a particular age range set for the competition this match, only players that classify within that age range will show.
- **Show all Financial Club players for Competition Season** - displays players that are financial within the season
- **Show all players unassigned** - this will list all the players within your club that are not currently assigned to a team.

You can also use the search option to find a player.

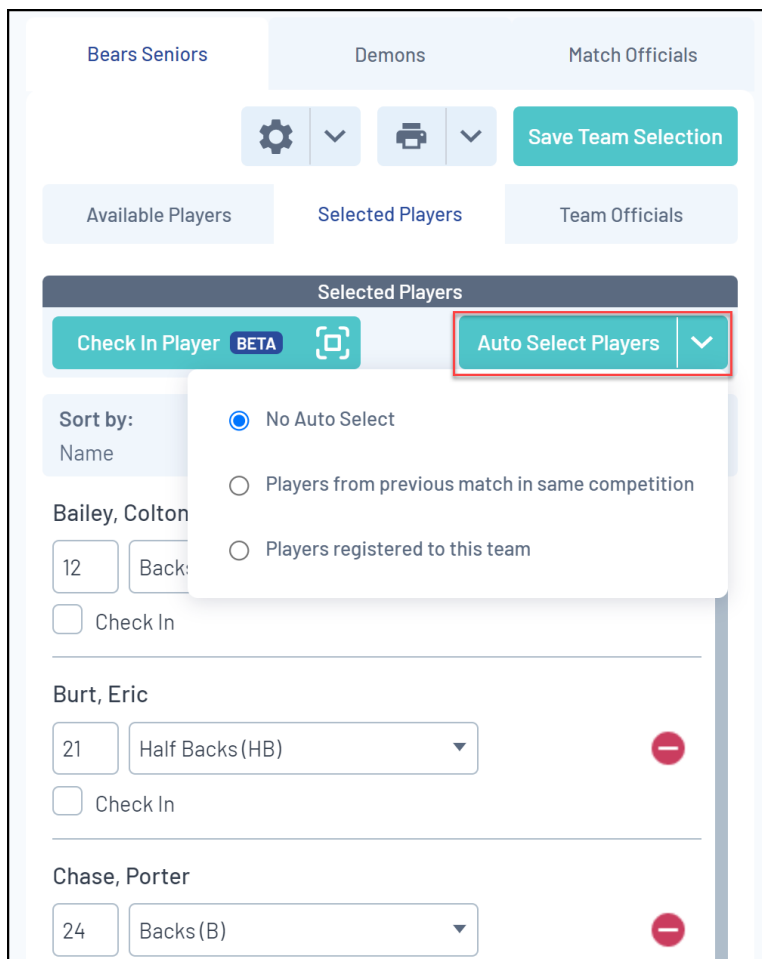

3. To select the player in the match, click the **ADD** icon against their names to assign them to the Selected Players list.

The screenshot displays a web interface for team management. At the top, there are three tabs: "Bears Seniors", "Demons", and "Match Officials". Below these are three buttons: a settings gear, a dropdown arrow, and a printer icon, followed by a teal "Save Team Selection" button. A second row of tabs includes "Available Players", "Selected Players", and "Team Officials". The "Available Players" section is highlighted with a dark header. Below the header is a filter input field with the placeholder text "Please enter..." and a close button (X). To the right of the filter are icons for list view and a dropdown arrow. The main area contains a list of five players, each with their name and birth date, and a teal plus sign (+) in a red-bordered box to the right of each entry, indicating the "Auto Select Players" option.

Available Players	
Floyd, Zia (10/01/1981)	+
Harrell, Donna (09/05/1994)	+
Herman, Madison (03/03/2007)	+
Huber, Buck (09/02/1987)	+
Humphrey, Leo (28/04/1998)	+

On the Selected Players list, you can also use the **Auto Select Players** option to automatically select players to add to this list rather than having to search and manually add members each time.

The **Selected Players** list shows the players that you have selected for this particular match.

Once players have been added to the Selected Players list, you can:

- Add their **Player Numbers** or **Player Positions** for the match
