What is GameDay Community?

GameDay Community provides our users and partners with an online destination to find, share and learn all things about GameDay including links to the latest product updates & release notes.

This resource can be accessed at all levels within an organisational hierarchy, whether you are a National or State governing boy or an Association, Club, or Team administrator.

GameDay Passport users have the ability to access this community portal directly through their Passport database by clicking on the GameDay Community icon in the top right-hand corner of the dashboard.

This will take you to the portal where you can view the recent updates, release notes, product updates and more.

Become a member of GameDay Community by signing up here (it's FREE to join!)
