

How do I view a participant's Program registration history?

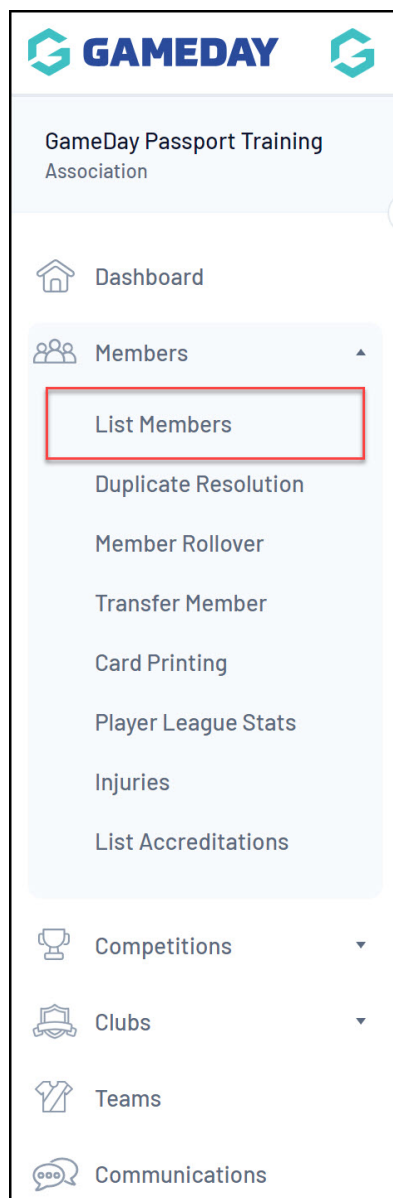

Last Modified on 06/12/2023 10:54 am AEDT

Passport administrators have the ability to check which programs a member has registered to through their [member record](#) in Passport.

This can only be seen if your organisation is currently running [Programs](#) and the member has been registered to at least one program.

To view a member's program history:

1. From your Passport dashboard, click **Members** > **LIST MEMBERS**

2. Use the magnifying glass icon to **VIEW** the member
