If your Promo Code is not valid, the user will receive an error message after they attempt to apply the code. If you believe your Promo Code is valid, be sure to check:

- Whether the **Usage Limit** has been reached for the Promo Code
- Whether the current date is outside of the Promo Code's **Start/End Dates**
- Whether the **Product** the user is attempting to purchase has been added to the Promo Code

NOTE: the promo code box will be hidden if a member is registering more than one person (e.g 1 adult and 1 child) within the one registration session. Promo codes was not designed to be used for multiple member use.

If a user applies a Promo Code during registration, this will be reflected on the payment confirmation screen as shown below.
