How to track a live match online?

02/10/2025 1:39 pm AEST

Overview

Live Scoring is a powerful feature that brings your games to life on your Passport website. When a scorer is logging game events using the live scoring tool, that information is broadcast in real time to your website's Match Centre. This allows fans, parents, and supporters to follow the action from anywhere, moment by moment.

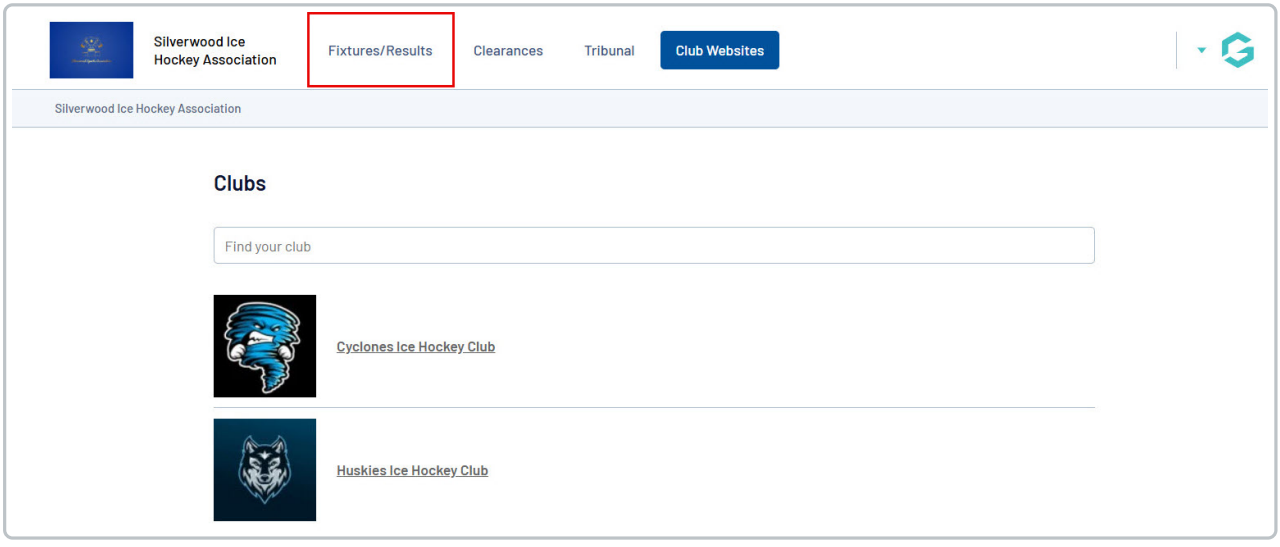

This guide will walk you through how to access the Match Centre and understand the key information available within it.

Step-by-Step

Step 1: Navigate to your website's Fixtures & Results page

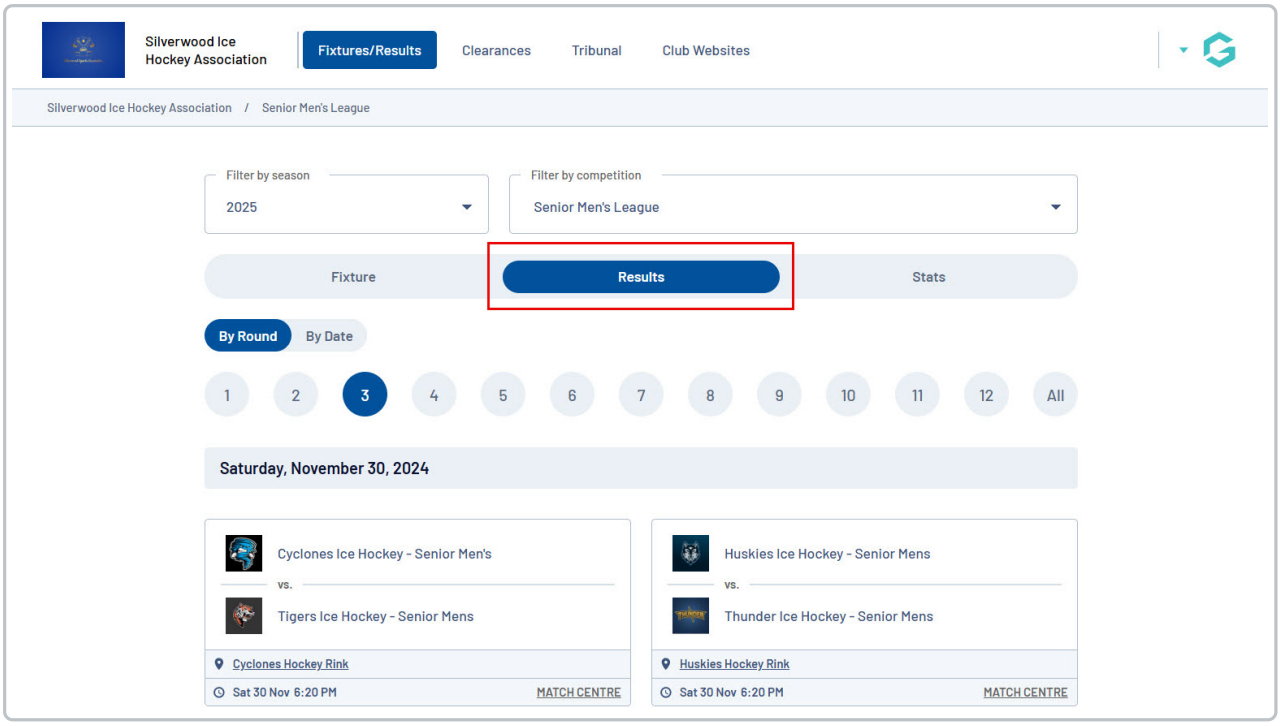

Open your Association's Passport website and go to the main **FIXTURES/RESULTS** page from your site's navigation menu.

> **Note**: If you are unsure if your Association runs their competition website through Passport, please get in contact with them directly

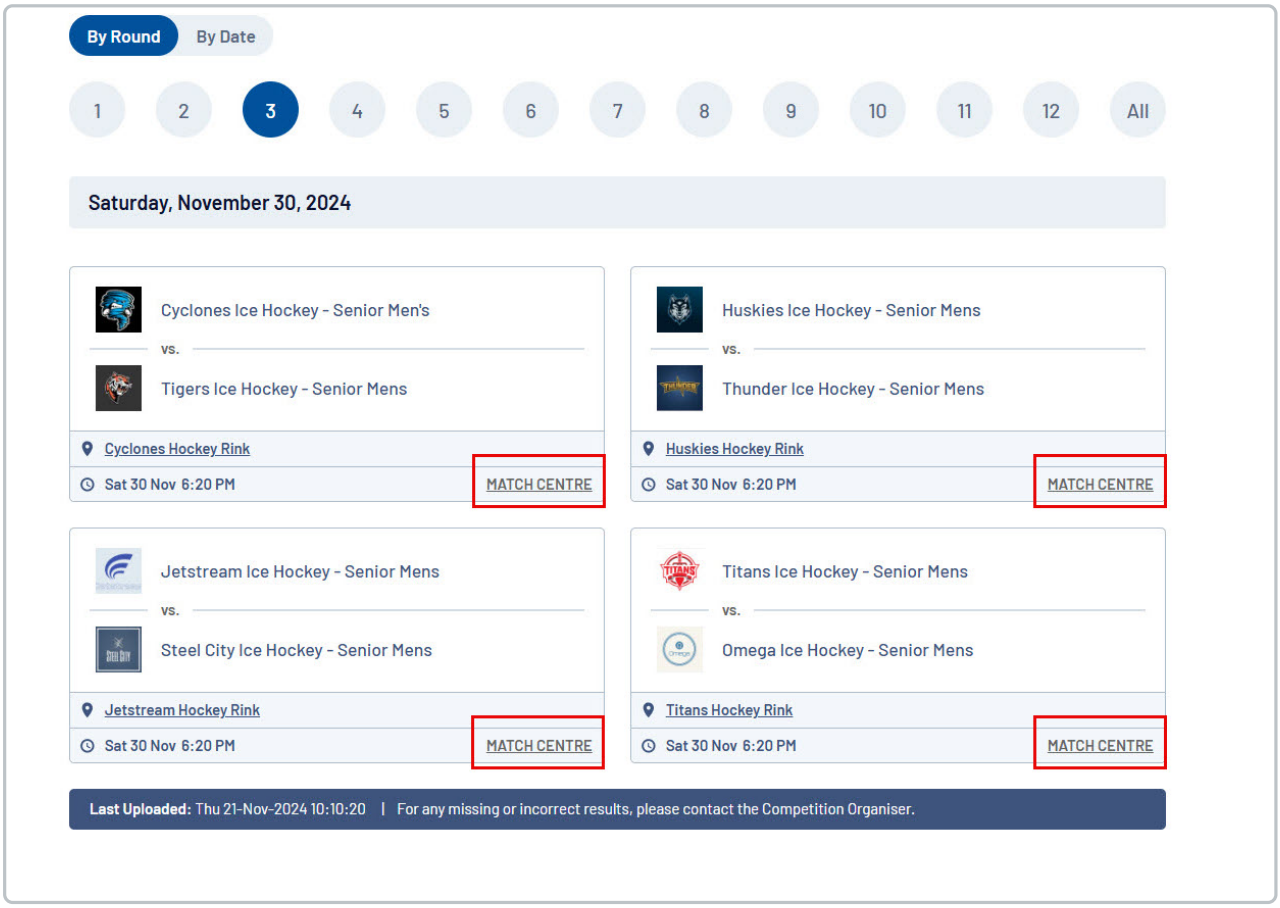

Step 2: Select the competition and fixture

First, find the specific competition you are interested in. Once selected, click the **RESULTS** button to view the full schedule of games for that competition that are in progress

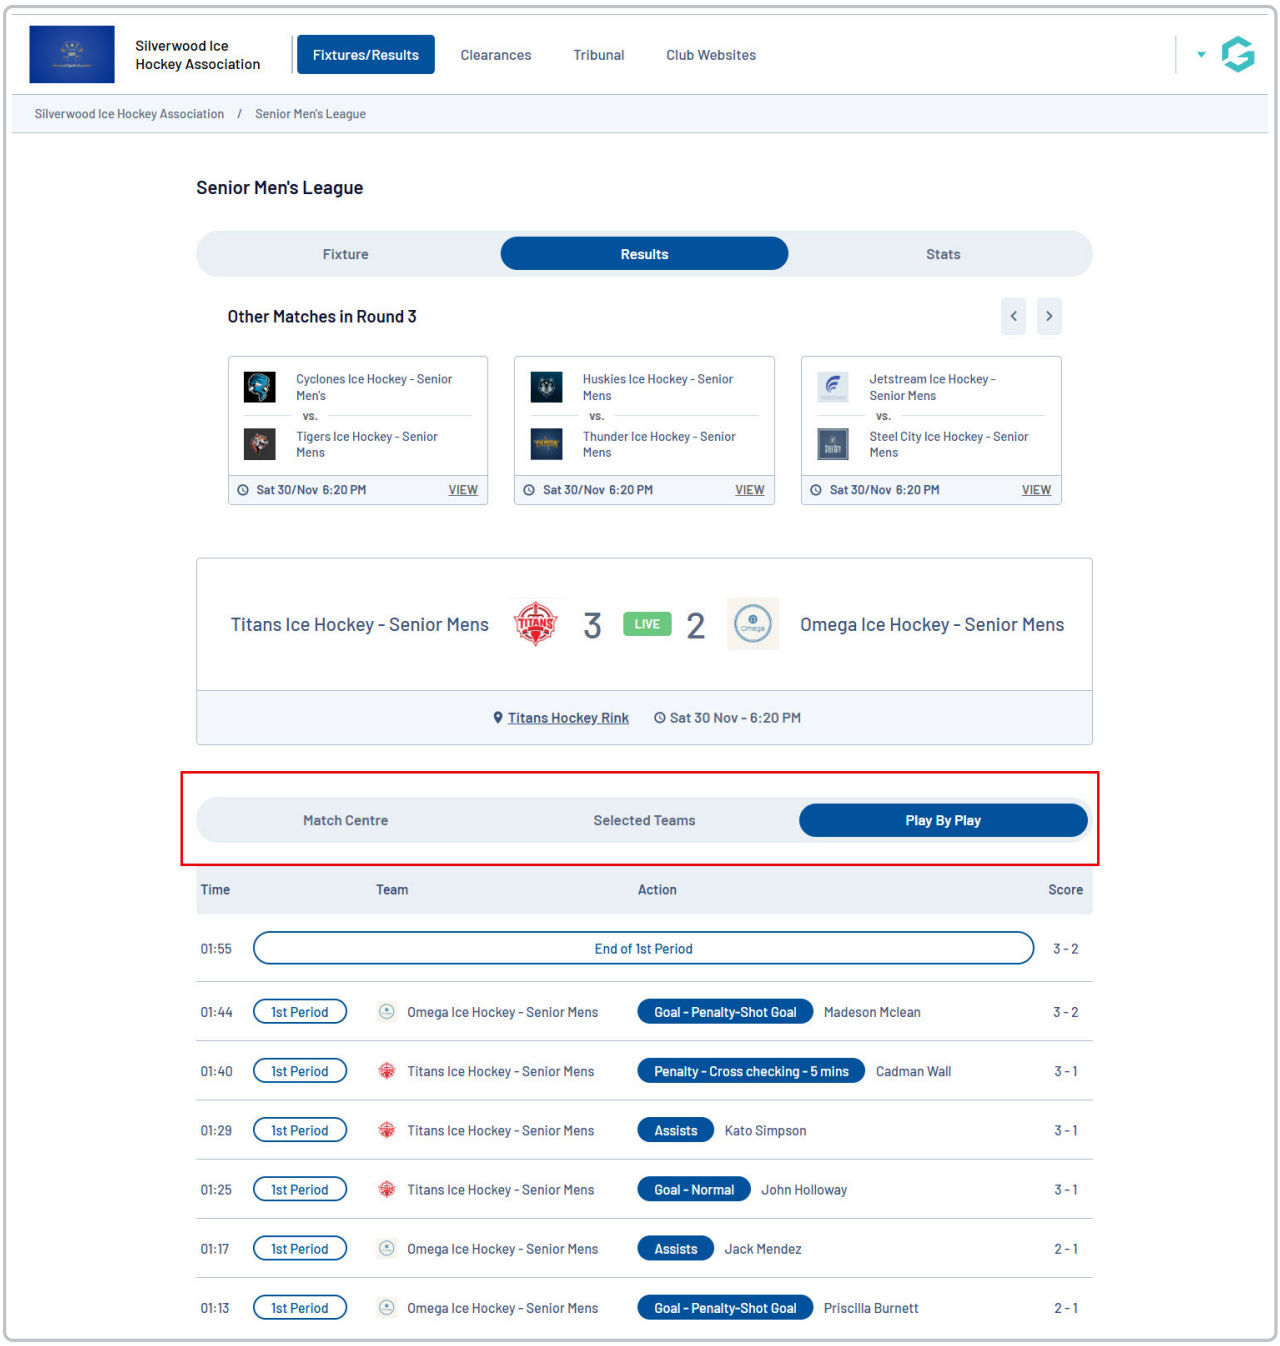

Step 3: Open the Match Centre

From the list of games, locate the specific match you want to follow. Click the **MATCH CENTRE** button next to that game to open the dedicated page for all live and post-game details.

Once you are in the Match Centre, you will find several tabs or sections that provide a comprehensive overview of the game.

Match Centre (Summary): This is your primary scoreboard. It provides a high-level view of the game's current status, displaying the overall score for both teams. The score is typically broken down by period (e.g., quarters, halves, sets), making it easy to see the game's progression at a glance.

Selected Teams: This tab displays the official team sheets for the match. Here, you can see a full list of all participating players for both the home and away teams, often distinguishing between starters and available substitutes.

Play By Play: This is the most detailed, live feed of the game. It provides a chronological, timestamped log of every significant action recorded by the official scorer.
