How to track a game online using Live Scoring

Last Modified on 03/09/2024 10:47 am AEST

When using Live Scoring, your play-by-play actions and cumulative match scores will appear in real time on your Passport website match centre.

To find your play-by-play actions on your website:

1. Open your website and navigate to the **FIXTURES/RESULTS** page.
 2. Find the competition you want to see, then click **FIXTURE**.
 3. Find the match you want to see, then click **MATCH CENTRE**.
 4. Scrolling down, you can see multiple options to keep track of a live game.
 - **Match Centre:** Allows you to track the total score of the match by period.
 - **Selected Teams:** Allows you to see a list of the players that are participating in this match.
 - **Play By Play:** Shows you the match actions that have been logged so far in the match, and a cumulative score.
