Clubs | Overview

Last Modified on 01/06/2023 11:12 am AEST

As a National, State or Association administrator with a multi-tiered hierarchy, you have the ability to manage a set of **Clubs** that can be nested under specific Associations within the hierarchy.

With Clubs included in your hierarchy, you can create and manage the details of any of your clubs, and provide access for other administrators to access individual club databases, which in turn can grant that administrator access to manage the club's members, registration forms, products, online results process and more.

To access the Clubs list from an Association database, click **Clubs** > **LIST CLUBS** in the left-hand menu:

Club List

Your **Club List** will show you any clubs that already exist within the Association, with a range of information including:

Clubs in Association ADD

Showing Name Including Status

	Name	Contact	Phone	Email	Active?
	Bears	Cathleen Wade	1300 100 200	hello@stacksports.com	<input checked="" type="checkbox"/>
