## Teams | Overview

Last Modified on 01/06/2023 11:38 am AEST

As a National, State, Association or Club administrator with a multi-tiered hierarchy, you have the ability to manage a set of **Teams** that can be nested under specific clubs within the hierarchy.

With Teams included in your hierarchy, you can create and manage the details of any of your teams, and provide access for other administrators to access individual team databases, which in turn can grant that administrator access to manage the team's members, staff, transactions, online results process and more.

To access the Teams list from an Association or Club database, click **TEAMS** in the left-hand menu:

## Team List

Your **Team List** will show you any teams that already exist within the Club, with a range of information including:

ADD

## Teams in Association

Showing Name Including 
Season 
Age Group 
Status

	Team Name	Competition	Season	Age Group	Contact Name	Email	Phone	Active
