## How do I add a Concussion record to a match?

Last Modified on 28/11/2023 10:39 am AEDT

GameDay Passport's **Concussion Management** feature supports the application of a 'Concussion Suspension' period which restricts the participant from being added to a match for a certain period of time.

Concussion Records can be added by competition administrators at the point of results entry following the steps below:

1. Click **Competitions** > **MATCH RESULTS**

2. Find the match you want to add a Concussion Record for, then click **POST GAME**

3. Click **Concussion Records** > **CONCUSSION QUICK ENTRY**

4. Enter the fields below, then click **ADD CONCUSSION RECORD**:

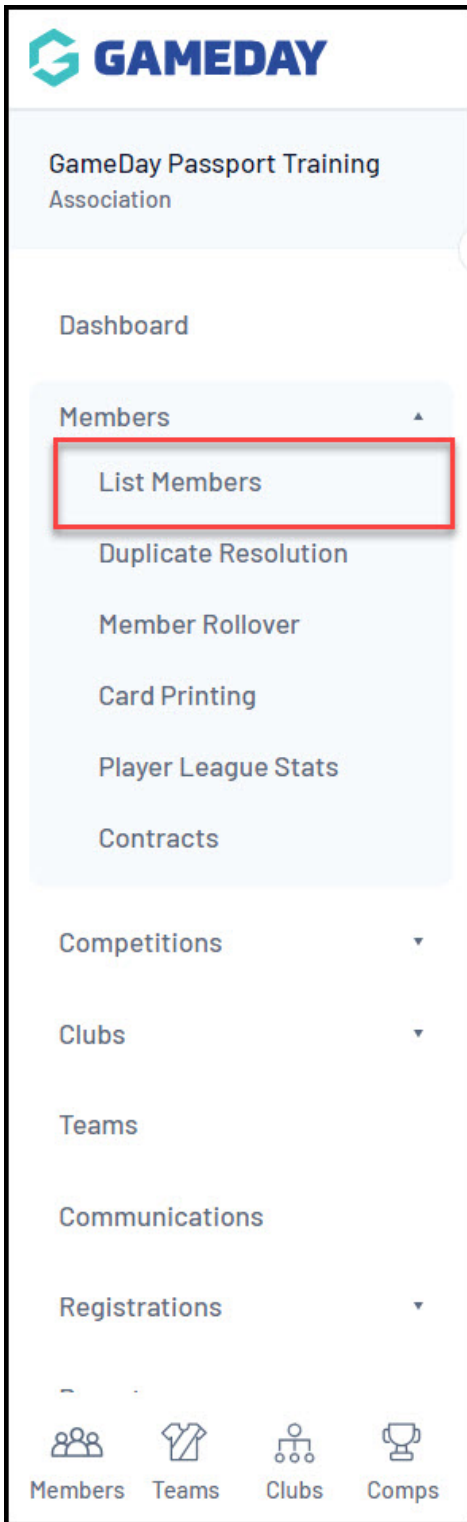

- **Member:** Select a member from the list of selected players.

**Note:** Only members that are selected and saved via the Pre-Game screen will appear in this list.

- **Witness:** Note the individual that witnessed the incident.
- **Reporter:** Note the individual that reported the incident.
- **Notes:** Add any additional notes to provide context of the incident.

Once this has been added, administrators can then apply a **Start Date** and **Expiry Date** of the Concussion Suspension period:

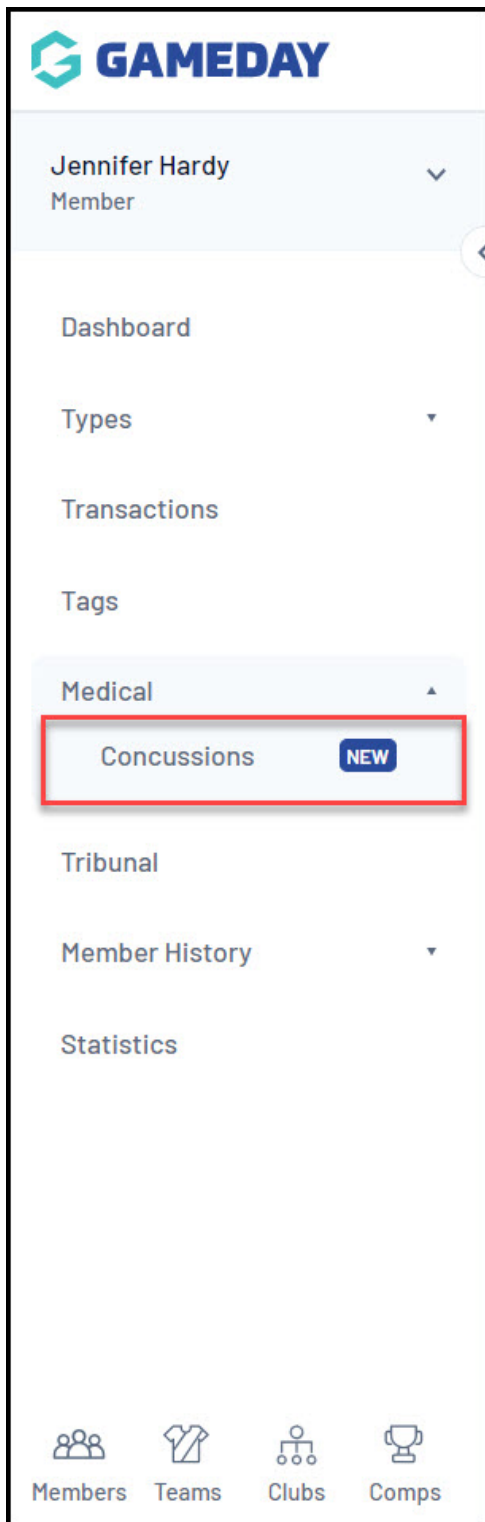

5. In your Passport database, click **Members > LIST MEMBERS**

6. **VIEW** the relevant member

	Hardy	Jennifer	<input checked="" type="checkbox"/>	26/11/1985		
---	-------	----------	-------------------------------------	------------	--	--

7. Click **Medical > CONCUSSIONS**

8. **VIEW** the relevant Concussion Record

Concussion History							
ADD	Concussion ID	Association	Competition	Club	Start Date	Expiry Date	
	31	GameDay Passport Training	2023 Stack Sports Competition	GameDay FC			<a href="#">Delete</a>

9. Add a **START DATE** and **EXPIRY DATE** to represent the duration of the Concussion Suspension

period.

**Outcome Details**

Concussion Start Date

Concussion Expiry Date

Other

Notes

Applying these dates to the member's record restricts this member from being selected in any matches being played during that period of time, which is reflected in the **Match Results > Pre Game** screen within a given match in the Concussed Members section:
