Publish to Web | Overview

Last Modified on 06/09/2023 1:54 pm AEST

As a competition administrator using Passport, you have automatic access to a Passport Website to which you can publish competition fixtures, ladders, results and statistics using the **Publish to Web** option available in your **Competitions** menu.

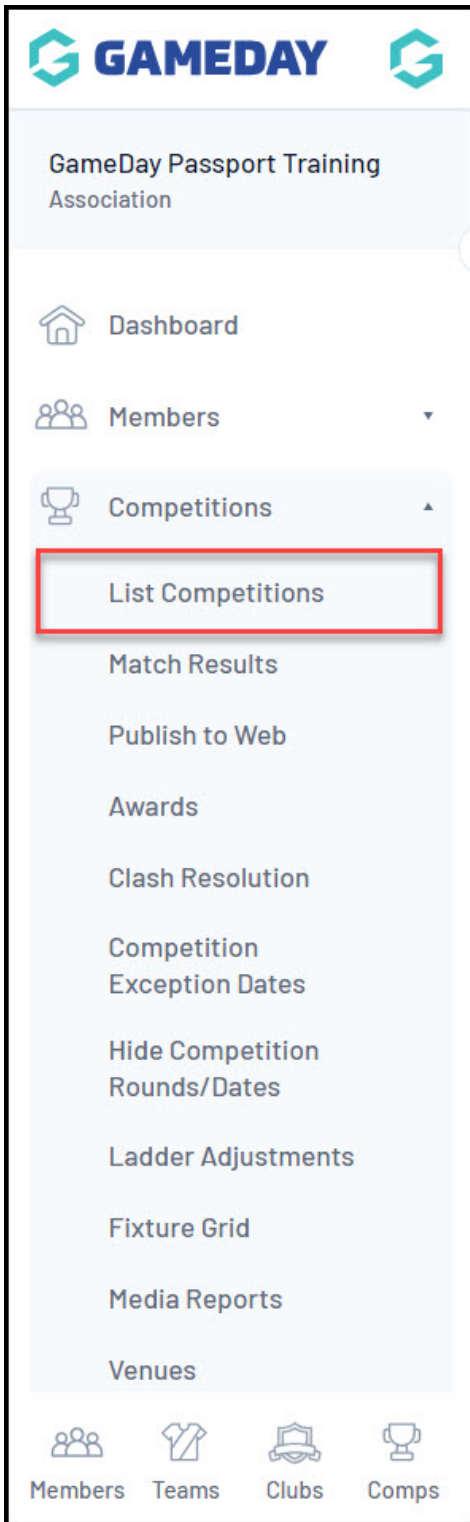

Using the Publish to Web feature also pushes your competition data to the [GameDay Mobile App](#), allowing participants, parents and fans to find your competition information quickly and easily.

Preparing Competitions for Publish

Before you can publish competition information from your database, you will need to configure which competitions you want to display on your website, and what information to display.

To configure a competition for publish:

1. In the left-hand menu, click **Competitions** > **LIST COMPETITIONS**

2. **VIEW** a competition
