

How do I reset a match?

06/10/2025 9:59 am AEDT

If you need to reset a match for a particular reason, then you can do so via the following:

WARNING: By resetting a match it **WILL REMOVE ALL DATA** of the match including all team lists, statistics and finals results (as well as any live scoring) so if you still need this information before resetting the match, make sure you screenshot the pre-game and post game screens before doing so as once it has been reset, no information can be retrieved.

NOTE: only league/association administrators can reset a match so if you are a club or team please contact your league admins directly.

1. Go to COMPETITIONS > MATCH RESULTS.
2. Click PRE-GAME against the relevant match.
3. Click the RESET MATCH button.

The screenshot shows the 'Pre Game' tab of a match setup screen. At the top left is a 'Back to Match List' link. Below it are tabs for 'Pre Game', 'At Game', and 'Post Game'. On the right, there is a 'Reset Match' button highlighted with a red box. To its right is a match summary box for '2022 test comp' on '15/07/22 12:00', showing '0 League Officials', '0 Officials', '3 Players', '3 Players', and '0 Officials' for 'Witches' and 'Team Flash'. Below this are tabs for 'Witches' and 'Team Flash'. At the bottom, there are sections for 'Available Players' (with a filter and a 'Check In Player BETA' button) and 'Selected Players' (with a 'Sort by: Name' dropdown and an 'Auto Select Players' button). A 'Save Team Selection' button is also present.

4. A confirmation pop up will display to confirm you want to reset this match completely. Click OK.

The screenshot shows a confirmation dialog box with the text: 'membership.mygameday.app says', 'Clicking OK will delete ALL data that you have entered for this match.', and 'Are you sure you wish to Continue ?'. At the bottom, there are two buttons: 'OK' (highlighted with a red box) and 'Cancel'.

5. The match will then be cleared - this may take a few seconds depending on how much information was input for this match. Once it has been cleared it will display a relevant message.

Match has been cleared.

6. Exit out of the screen/tab and go back into match results again to re-input results.
