How do I view a team dashboard in the GameDay App?

17/01/2024 3:40 pm AEDT

TEAM HOME

The team home page is where you can view the team schedule, ladder, and statistics related to this team within the relevant competition.

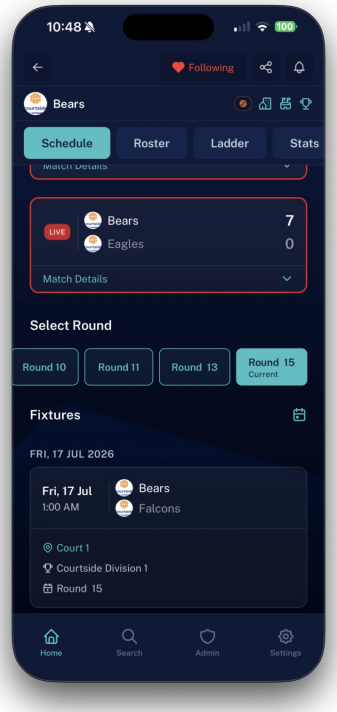

You can **edit the name** of the team by navigating to the Home screen, selecting any of your followed teams, and clicking on the Selected Team banner. By clicking the **edit (Pen)** icon, you can set a personalised Team Nickname to easily locate teams related to you or your family members.

The **Team Home Screen** gives you a quick snapshot of your schedule, displaying the date, time, and opponent for your next upcoming match.

To see your full schedule:

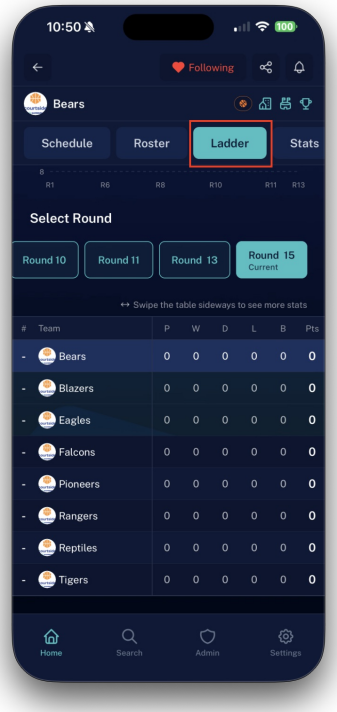

1. Navigate to the **Team Home Screen**.
2. Click on your **Team Name**.
3. This opens a detailed schedule view where you can browse a complete history of all past fixtures, match results, and all scheduled future games.

You can view the competition ladder from the **LADDER** tab.

Swiping the ladder table will display additional ladder values.

By default, the ladder will display the current round, although previous round summaries are available to view.

You can also view the **individual statistics** for each member of the team throughout the season.

Statistics may or may not be listed here, depending on whether the competition administrators record this type of information. If you wish to be removed from a team list (so your information is not visible on the website or the app), you can do so by logging into the GameDay Member Profile Portal

If you see that statistics are incorrect for you or your family member, please speak to the competition administrators directly.
