How do I export GameDay View data?

Last Modified on 07/05/2024 1:31 pm AEST

GameDay View allows certain widgets to be exported to a CSV file that can be opened in Excel, either as summary data or the underlying data that comprises the report.

Note: Not all GameDay View widgets support export functionality

To export data from GameDay View:

1. In the left-hand menu, select **GameDay View > GAMEDAY VIEW INSIGHTS**

Dashboard

Associations

Finances

Clearances

Courses

Registrations

Member Profile Portal

Reports

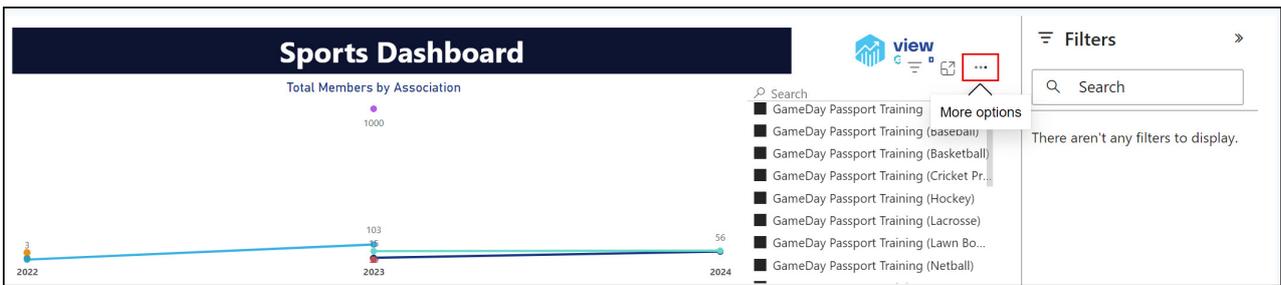

GameDay View

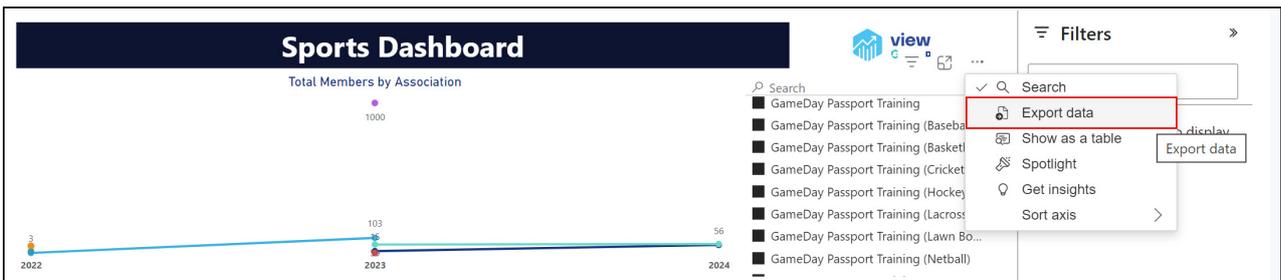

GameDay View
- Insights (v3)

2. Hover over the relevant widget and click the **MORE OPTIONS** menu

3. Click **EXPORT DATA**

4. Choose the export format you want to use, then click **EXPORT**

Which data do you want to export?

Export your data in the format that suits your needs. If you have a lot of data, the number of rows you export might be limited depending on the file type you select. [Learn more about exporting data](#)

Data with current layout

This option is only available for table and matrix visuals

Summarized data

Export the summarized data used to create your visual (for example, sums, averages, and medians).

Underlying data

Visual does not have aggregates or measures

File format:

.xlsx (Excel 150,000-row max) ▾

Export Cancel

5. Your export will then become available to download from your browser
