How do I view a GameDay View widget in full screen?

If you want to focus on one specific widget in GameDay View, you can expand the widget to display in full screen view by following the steps below:

1. In the left-hand menu, select **GameDay View** > **GAMEDAY VIEW INSIGHTS**

2. Hover over the relevant widget, then select the **FOCUS MODE** icon

This will open the widget in an expanded full screen mode, in which you can interact with the widget, including filtering and drill down features:
