How do I find live scores on my Passport website?

02/10/2025 1:57 pm AEST

Overview

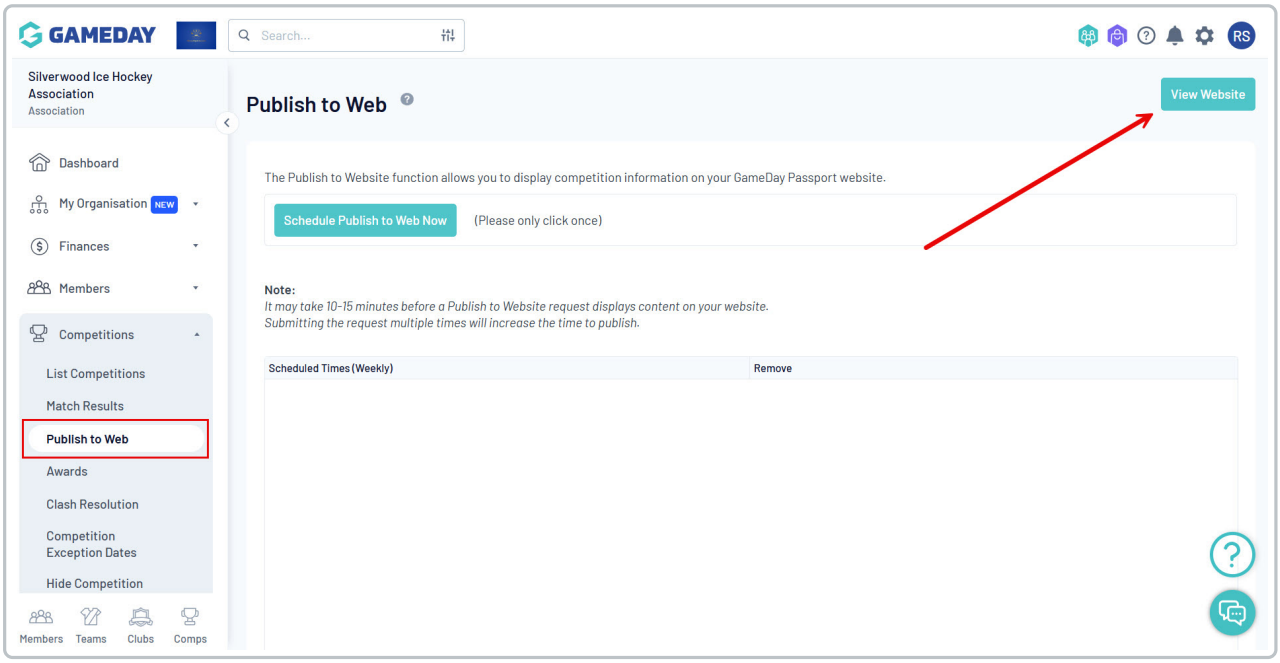

If your sport is using Live Scoring to enter results for matches, you can find the live scores updated in real time using the Match Centre of the relevant fixture on the Association's Passport website. As an administrator, your Passport website can be found directly through your Passport competitions database.

Step-by-Step

Step 1: Open your website

From your Passport database, open your website by going to **Competitions** > **Publish to Web** > **VIEW WEBSITE**

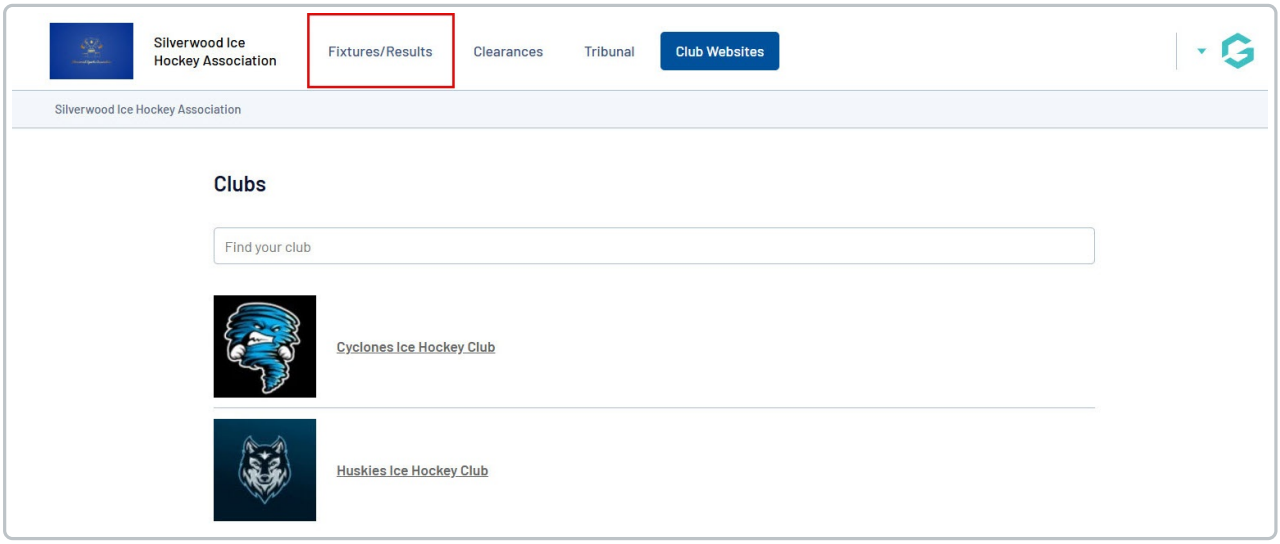

> **Note:** If you're a club-level administrator, you can view the website by clicking**Competitions** > **VIEW WEBSITE** in your left-hand menu

Step 2: Navigate to your website's Fixtures & Results page

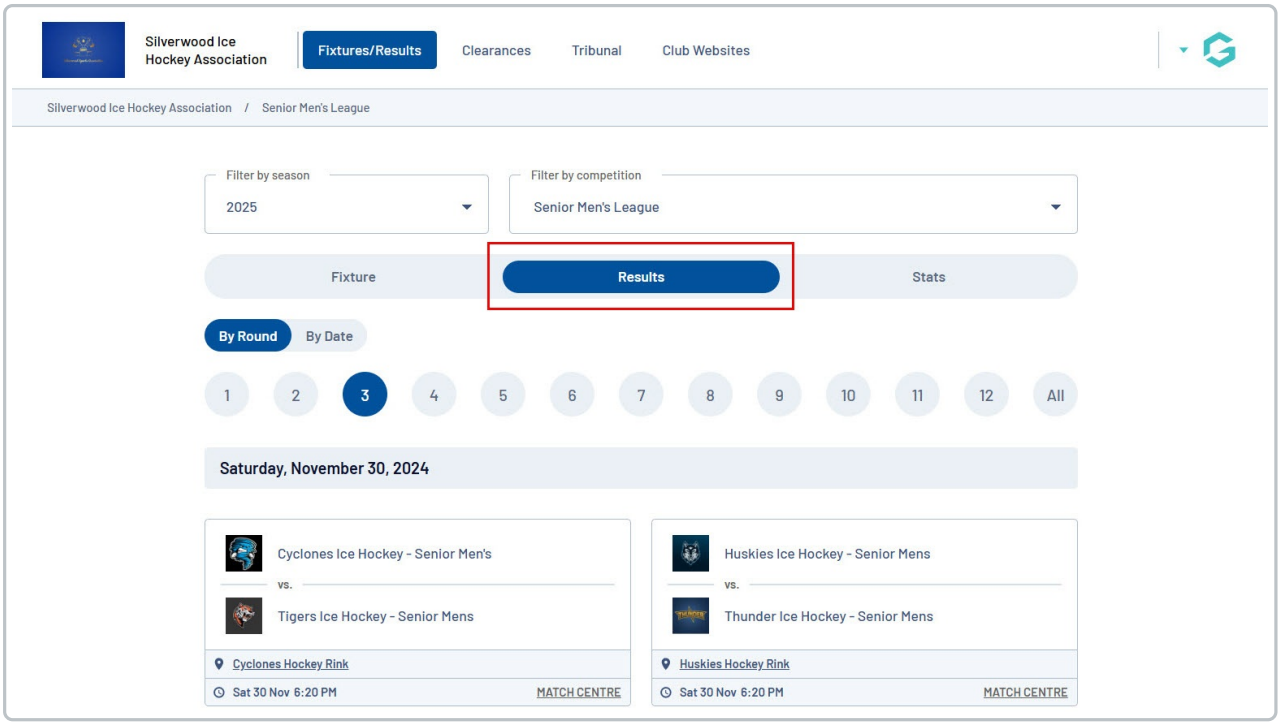

Open your Association's Passport website and go to the main **FIXTURES/RESULTS** page from your site's navigation menu.

Note: If you are unsure if your Association runs their competition website through Passport, please get in contact with them directly

Step 3: Select the competition and fixture

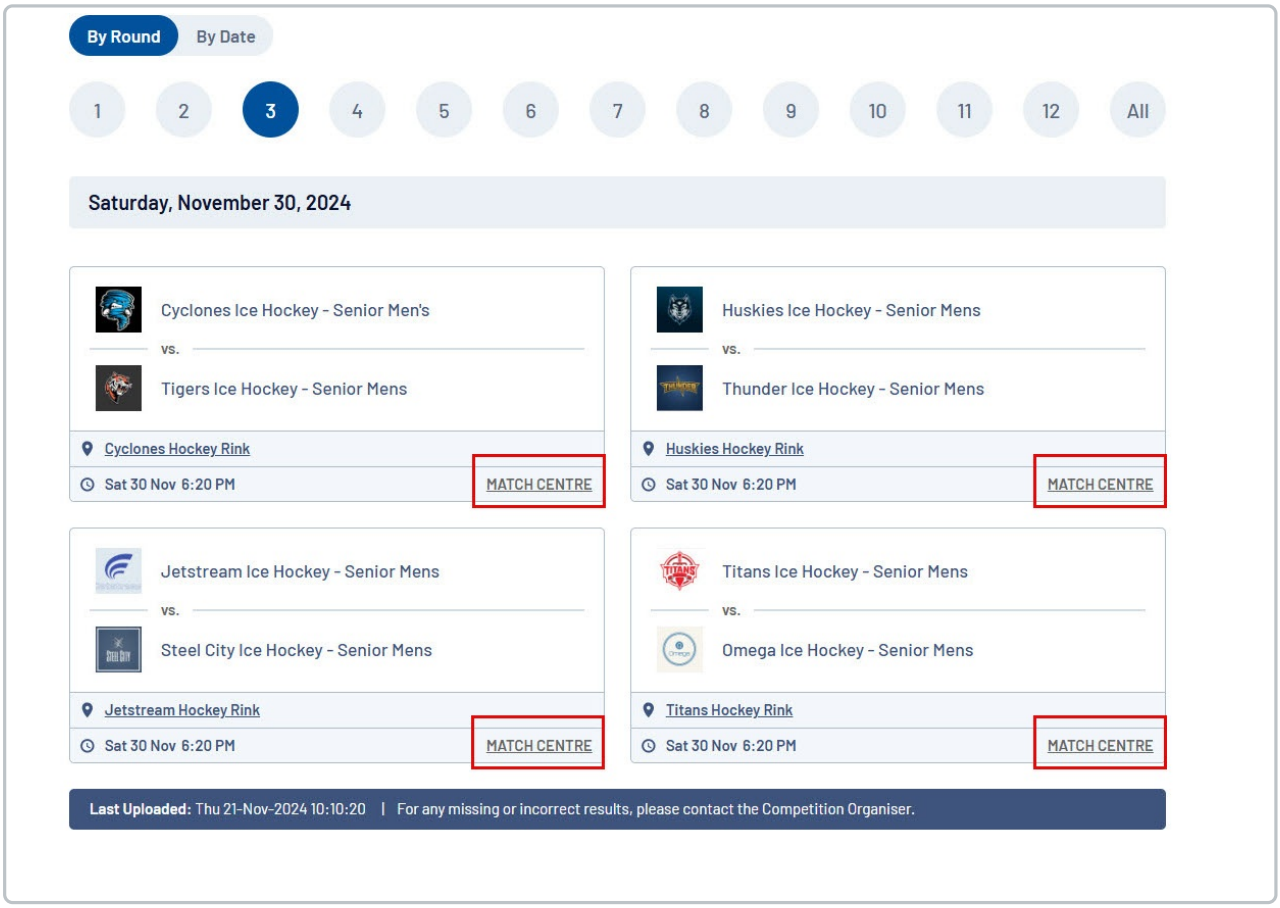

First, find the specific competition you are interested in. Once selected, click the **RESULTS** button to view the full schedule of games for that competition that are in progress

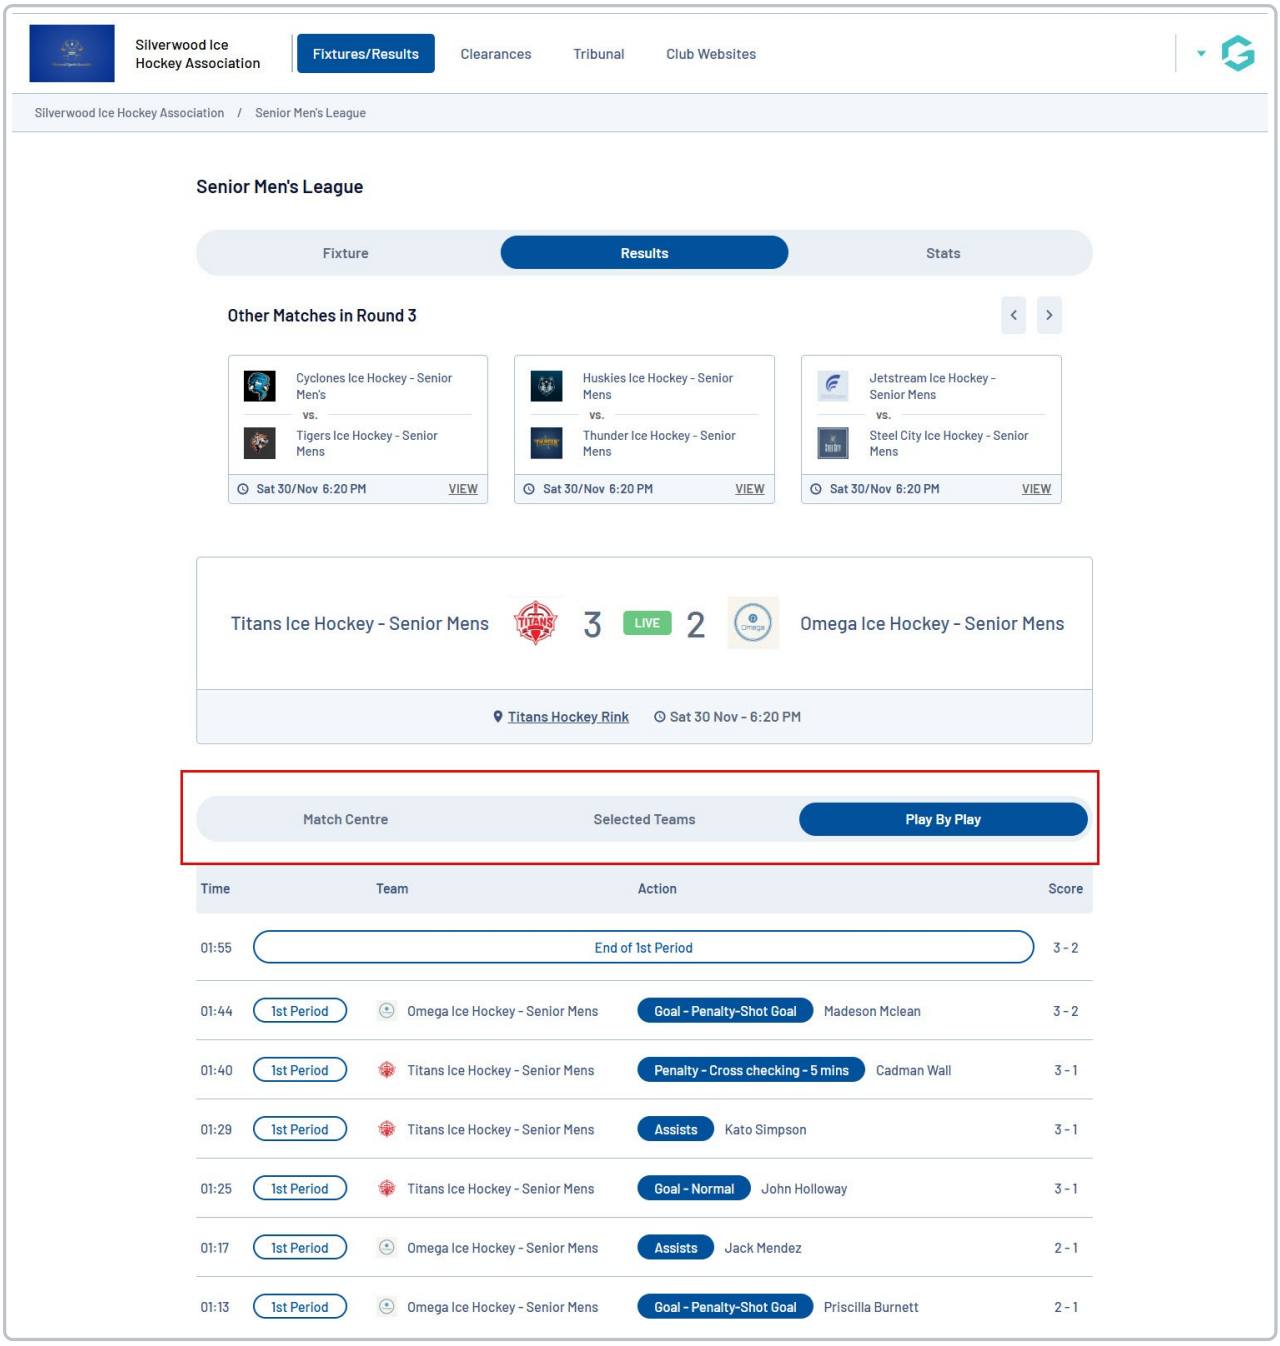

Step 4: Open the Match Centre

From the list of games, locate the specific match you want to follow. Click the **MATCH CENTRE** button next to that

game to open the dedicated page for all live and post-game details.

Once you are in the Match Centre, you will find several tabs or sections that provide a comprehensive overview of the game.

Match Centre (Summary): This is your primary scoreboard. It provides a high-level view of the game's current status, displaying the overall score for both teams. The score is typically broken down by period (e.g., quarters, halves, sets), making it easy to see the game's progression at a glance.

Selected Teams: This tab displays the official team sheets for the match. Here, you can see a full list of all participating players for both the home and away teams, often distinguishing between starters and available substitutes.

Play By Play: This is the most detailed, live feed of the game. It provides a chronological, timestamped log of every significant action recorded by the official scorer.
