How do I set up a Club Championship system?

Overview

The Club Championship feature allows an organisation to combine the results from multiple competitions into a single, overall championship ladder. This is typically used for rewarding a club-wide champions based on the performance of teams across different grades or leagues.

> **Be aware that:**
>
> - You must have existing competitions and results entered before you can create a meaningful Club Championship.
> - Points are allocated based on the settings you define for wins, losses, draws, byes, and forfeits.
> - You can apply a weighting (percentage) to different competitions. This means results from some competitions can contribute more or less to the final championship total. For example, a senior competition could be weighted at 100%, while a junior competition is weighted at 50%.
