Overview

Glory League is a fully automated cost-effective video engagement system for amateur basketball. It makes everyday players feel like NBA superstars with professional quality full game video, personal highlight reels and stats.

Suitable for Basketball organisations of all sizes, our integrated offering with Glory League through [Courtside](#) sends details of matches and key player stats direct to Glory League which provides an automated video engagement platform for your participants and fans. Participants will receive and have access to videos of their matches which can be shared easily.

Integrating Courtside with Glory League

Using our Courtside App, you can score your game live and set up a direct integration with Glory League to achieve both a seamless scoring system and a cutting-edge video highlights platform that sends the edits to each player post-game.

STEP 1

A video camera is mounted above the court.

STEP 2

An iPad app scores the game and starts recording.

STEP 3

Each point scored is cut into a highlight video for the player.

STEP 4

Every participant is emailed a link to the game video.

If you're interested in setting up an integration with Glory League, please click [here](#) and select **Get Started** to submit your enquiry
